

Introducing Bounceboards LLC, at the New York International Toy Fair 2016 Booth #5289

Do you snowboard or skateboard on your trampoline? Bounceboards LLC Company, owners of BOUNCEBOARD® brand trampoline boards, have released a new video of sick gravity defying tricks: <https://youtu.be/Ye-NX36DDmw> for the New York International Toy Fair. Come meet a couple of enthusiastic, 13-year-old team athletes from Hudson, NY, Ollo Furlong and Tanner Race, on Sunday, February 14, 2016. Javits Center, NYC, Booth 5289

How many kids take the wheels off their skateboards and try to jump on a trampoline to try aerial tricks? Was this you? Did you get caught? If you got caught like inventor Chris Kane, you had to come up with something that your parents would allow you to use on the trampoline. Chris was determined to practice his “methods” on the trampoline and came up with a softer board. He calls his patented, flexible, foam trampoline board “BOUNCEBOARD”. His parents agreed, removing the rigid metal and wooden parts of action boards in exchange for a more forgiving and safer material like his specialized EVA foam is safer. Plenty of other parents also agree and are choosing trampoline boards by BOUNCEBOARD for their young active “groms.”

Teaming up with many mentors, manufacturers and athletes, Chris has introduced a safer sport for action board thirsty youth. Trampoline boarding is turning into the craziest new sport to hit the planet! It has taken a long 13 years but sales are booming and BOUNCEBOARD is becoming a household word. Turns out most trampoline manufacturers agree. Consumers will see many color selections and co-branded BOUNCEBOARD trampoline boards in 2016 from some of the largest trampoline dealers in the world. Acon Air®, Avero®, Fun Spot®, Jumpking® and JumpSport® are a few trampoline manufactures and dealers who sell NSI and our brand of BOUNCEBOARD trampoline boards.

Currently BOUNCEBOARD trampoline boards are sold on the Bounceboard.com website, Northshoreinc.com website and many e-commerce sites around the world, like Amazon.com®. Want to touch them? You will find them for sale near the Spring Free® trampoline display in Scheels® All Sports, sporting goods retail stores this spring! Or rent them at your favorite indoor trampoline park!
