

MEandMine is all about creating educational play kits that make children's journeys of self-discovery the most fun, mind-blowing, and inspiring hands-on adventures.

Playtime with Purpose

MEandMine is on a mission to inspire lifelong love of self for every kid. We help kids discover all the marvelous ways their body and emotions work to help them grow. Once kids find out what they're made of, this helps them face the wild road of life ahead with excitement, confidence, creativity, and resilience.

THE BEST TOY OF 2019

MEandMine was awarded the Brain Child Award by The Tillywig Toy Awards for its achievement in nurturing children's intellectual and social-emotional development.

Designed by Experts

The MEandMine “Read, Build, Play” experiences are designed by a group of educators, pediatricians, and psychologists. We build our award-winning products based on David Kolb’s Learning Theory that starts with reading and layers on play and practice as a surefire way to help kids discover all the magic hidden inside them.

READ

Experience-Based Story

Bring abstract concepts to life with intuitive and playful adventures.

BUILD

STEAM Powered Projects

Merge humanity and social-emotional developments with tactile explorations.

PLAY

Imagination-Backed Self Care.
