

WE'VE GOT YOUR BACK!

REVOLUTIONARY!

THIS IS OUR STORY FROM HOCKEY MOM TO BACKPACK INNOVATOR

Josie Moncada has come a long way from the time she put her son's hockey pads on wrong and had to come out of the stands to fix them while everyone waited..... to creating a trendy, and very unique Hockey StarSportsBackpack- that will now make every young hockey fan proud to own one. She then moved on to create the Football version of the StarSportsBackpack.

After 3 years of testing, trying to find a factory and a design that could be both manufactured and aesthetic, she and her company are now in a position to start marketing the first of many sports' accessories.

However, it hasn't been all work and no play, as her son plays goal in an elite league, and is invited to the special training camps held throughout North America, for elite players.

Star Group Sports Inc., holds United States Patent and Trademark Office (USPTO) Patent Pending status on all of their hard-shell backpack concepts. They have been in development for over five years.

The company is a brand new licensee with CLC, LEARFIELD, and for The Ohio State University. Star Group Sports Inc, proudly holds licenses for several major NCAA schools and plans to expand it's roster exponentially in the coming months.

"Many retailers are jumping on board and expressing great interest in our product. It is being anticipated as an upcoming BIG SELLER", says Josie. "It's truly a unique product and triggers emotion for fans , because they are so loyal to their favourite team."

The company is now producing the backpack for the remaining NCAA schools and expanding it's reach throughout the country .
