## TEKYGO! ORIGIN STORY

TegyGo! lives in a secret and mystical world that exists inside all of our computers, tablets, phones and TV screens. Inside these devices exists a colour-filled and wonderful small world that not even an ant could see it.

Like you, TegyGo! is tired of playing the same old boring games and watching the same old boring shows. Like you, TegyGo! wants to play by embarking on new and fantastically magical adventures.

While searching for somewhere new to explore, TegyGo! came across our world. A world so exciting and wonderful that TegyGo! couldn't wait to visit and make new friends. The only problem is that our world and TegyGo!'s world can only be joined by the Magic Portal. But, there is a very important trick to helping TegyGo! travel through the portal. The 4 magic words that will transport TegyGo! can only be spoken by children from our world and only by children who have the magic spark. TegyGo! needs the help of every little one out there. TegyGo! needs the magic of the spark!

So, let's give it a try. Turn on your Portal and shout those 4 magic words...

**3,2,1...TEKYGO!**
